SCMA AWARDS OVERVIEW

The Saskatchewan Country Music Association (SCMA) honors its members who have excelled during the past year with an SCMA Award. There are awards for artists, musicians, radio stations/personalities and industry members. The awards are presented each spring during the SCMA Awards Weekend. The criteria and voting procedures are developed and reviewed each year by an Awards Rules and Regulations Committee (Committee) and approved by the Board of Directors (BoD). Awards criteria will evolve as there are new methods introduced to promote artists and their music. Any disputes regarding these awards will be resolved by the BoD.

REQUIREMENTS FOR AWARDS

ELIGIBILITY REQUIREMENTS

Nominees for SCMA awards must be members of the SCMA in good standing as of December 31 of the Awards Eligibility Year.

All applicants (artists, and at least 50% of a group's members and of co-nominees) for awards must have established residency in Saskatchewan. Applicants must be able to provide proof of residency (such as a CRA Notice of Assessment) if requested by the Awards Verification Committee.

In the past the Awards eligibility period for all award categories has been November 1 to October 31 each year. Beginning with 2025 the SCMA is beginning the move to a calendar year for eligibility. For the 2025 awards the eligibility will be November 1, 2023 to December 31, 2024. For the 2026 awards the eligibility period will move to January 1 to December 31, 2025. For the Single of the Year award, the recording need not have been first released in the Canadian market during the current award year but will be based on the singles performance during the current year.

For the 2025 awards the eligibility period is November 1, 2023 to December 31, 2024.

NOMINATION AND VERIFICATION PROCESS

Awards are divided into multiple categories. The majority of awards will be open for applications and/or nominations with some being by nomination only or by application only. Related instructions for application and/or nomination are electronically mailed to the email address on record for each SCMA member. The awards and a summary of their criteria are below. Details are provided in the remainder of this document.

Any ballots sent to members are deemed to have been received.

Any award category not receiving at least three applications/nominations will not proceed past the application/nomination ballot and those awards will not be presented in the current awards year. The Special Nomination/Application awards are exempt from this criteria and are awarded solely by BoD discretion.

Nominations for specific awards are then submitted by members to the SCMA Awards Verification Committee for verification of each potential nominee's eligibility. The Awards Verification Committee may choose to contact other members of the music industry to determine such details as album release date, authorship of song, production credit, etc. At no time is the perceived quality of the nominee's work discussed.

It is the responsibility of the applying or nominating members to ensure the candidate meets all eligibility requirements for any awards. Deliberate attempts to misrepresent eligibility requirements will be reported to the SCMA Board of Directors and may result in disciplinary action.

Candidates have an obligation to ensure that they meet eligibility requirements for any award for which they apply or are nominated and must notify the SCMA Board of Directors immediately if information is inaccurate or they do not wish to be considered for an award.

If there is production or song writing credits under current dispute with SOCAN or any other registering agency, and documentation is provided, the applicant may be disallowed. For example, if a song is nominated for Single of the Year and Songwriter of the Year, but the composer is under dispute, the song would still be eligible for Single of the Year since that award goes to the artist who recorded it. This song would not be eligible for Songwriter of the Year since the award goes to the composer, who is under dispute.

VOTING PROCESS

First Ballot

After nominee/applicant verification has been completed, a First Ballot is prepared which includes all eligible nominees for each award category. One ballot is provided electronically to each SCMA member for selection of their preferred nominee.

Completed first ballots are submitted to the verification committee to be confidentially tabulated. Only the ballots provided by the SCMA and submitted by members through the specified process will be eligible. A ballot containing more than one selection in any individual category will be considered a spoiled ballot. It is not possible to issue duplicate ballots.

Block voting, whereby award applicants or nominees attempt to directly influence the vote of other members is strictly forbidden. If such a situation is proven to have occurred, the nominee will be disqualified.

The verification committee selects the ten (10) nominees with the highest number of votes (Including ties) and performs a second verification process. The top ten (10) nominees and ties move on to the Second Ballot.

Second Ballot

A Second Ballot is prepared which includes the top ten (10) eligible nominations and ties from the First Ballot for each award category. One ballot is provided electronically to each SCMA participating and associate member for selection of their preferred nominee.

Second Ballots are completed and submitted by the members to the verification committee to be confidentially tabulated. Only the ballots provided by the SCMA and submitted by the specified process will be counted. A ballot containing more than one selection in any individual category will be considered a spoiled ballot. It is not possible to issue duplicate ballots.

The verification committee selects the five (5) nominees with the highest number of votes (Including ties). The top 5 nominees and ties move on to the Final Ballot.

Final Ballot

The final ballot is emailed out to all eligible SCMA members to select up to one (1) nominee they deem most deserving in each category. (Note: you do not need to select a nominee in every category if you do not wish to). All eligible votes are sent to the verification committee for tabulation. The results are sealed in an envelope until the awards gala.
